B. COURTESY OF THE FLOOR

Rob PILIGIAN of 415 Oakwood Drive stated that he will reserve comments on Resolution 3227 until it is read. He does have a question in regards to the proposed Finance Director. He understands that there is a provision in the charter that prohibits elected officials applying and/or hired by the Township for one year after their service. He is requesting that this provision be waived for Treasurer KOREN for her to apply. He feels the township owes her gratitude for all she's endured during her tenure. Attorney Gross stated he would investigate the matter.

Ken SNYDER of 4272 Abigail Lane would like to yield his time until the Budget Ordinance is read.

Jeff & Christy VIVIAN of 2623 Halleck Drive noted that they had a personal tie to the fatal accident on MacArthur Road that took the life of Mia Due and have grave concerns with the racing that is taking place on MacArthur Road. These individuals congregate in the T Mobile parking lot with approximately 100-150 cars and then proceed to race down MacArthur Road in excess of double the speed limit. They understand that the Police are limited in what they can do since the parking lot is private property, but they implore that greater vigilance be given to the high speed racing that takes place on MacArthur Road before another tragedy occurs. He hopes that the Township will be proactive with this situation and look into the purchase of traffic cameras and the possibility of the State Police intervening. Chief MARKS stated that this situation is not going to be solved immediately. He noted that this is the second year that his department has written a record amount of citations. Mr. Vivian was correct in the statement that they cannot remove anyone off of private property without the request of the owner. Chief MARKS explained that the Department is aware of the situation and they are doing what they can with the limited number of officers on staff. Sadly, it does come down to personal responsibility to the actions of the individuals as he has seen during his tenure that driving in general has gotten worse. Chief also noted that they have had the State Police help out from time to time but they too are understaffed. Commissioner WARREN asked that the Township find a way to help fund cameras as they are not only a deterrent but they also can help in prosecution. President MARX noted that the Chief has budgeted for 2 police motorcycles which will hopefully be a deterrent. Chief MARKS added that his budget also included cameras.

Susan BARTHOL of 3046 Birch Street South asked what was planned with the old Police Station on Lehigh Street. The Mayor noted that it will be marketed soon. Ms. Barthol then asked who owns the land known as Whitehall Farms. The Mayor stated he believed it to be Abe Atiyeh. She then asked if there was a developer that would be building the 43 homes that have been proposed and what the timeline of construction will be. The Mayor noted he did not have that information. Ms. Barthol stated she feels the traffic is going to be bad and does not understand how it will loop and connect to Municipal Drive. President MARX informed her that a highway occupancy permit will have to be obtained for Lehigh Street. Commissioner WARREN noted that the Municipal Drive connection is just for emergency access and for the existing house on the Tate Farm property. Ms. Barthol also asked how close the new homes will be to the existing homes on Birch Circle West. Frank Clark advised they will be approximately 40-50 ft from the property line.

Ken Snyder of 4272 Abigail Lane stated that he met with Mayor Harakal and Deputy Mayor Jack Meyers last week and went over the budget and is grateful for the time he was given by them. At this time, he would like to comment on a few items: 2.9 million was received from the Recovery Act which was used to help balance the budget. He asked how much money in improvements is going back to the residents. He noted that there is a 4.5 million deficit and the township is using reserves to balance the budget so taxes do not have to be raised. Cable fees that are received and a \$700,000 rebate because of healthy employees greatly help as well. He noticed a \$300,000 grant for the fire relief fund and questioned why a study for a paid department was not listed in the budget. Mr. Snyder has
